Comment Reasons:

Comment: Dear planning committee members,

I would like to support the application number 143413/FO/2025 for the following reasons:

- it is a very detailed application supporting the thriving of local wild life whilst catering for the needs of local residents
- at a time of climate crisis, this is a more than welcome project mitigating the effects of climate change in urban area, favouring green spaces and ensuring that carbon stored in soil will stay there. It is also offering a space for residents to enjoy nature and will support their mental health and well being.

Please acknowledge receipt of this comment.

Yours sincerely,
