Comment Details

Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I want to strongly support this application due to:

Protection of biodiverse landscape

Protection of community asset

Access to wildlife for children in cities outside of a formal park landscape

Protection of health and well-being asset for local community

Protection of wildlife present

Commitment as a city to Manchester being a climate responsive city

To remove this would remove a life line for the local community in terms of mental health effects.

[REDACTED] this space was a sanctuary. Completely different to the park where I didn't feel comfortable and was surrounded by activities - this space enabled me to have a real connection to nature and had a huge positive impact on my mental health. To remove this space with anything other than this application would have a significant detrimental impact on people's lives.

Thanks,

[REDACTED]
