Commenter Type: Business

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: Dear Planning committee members, I am commenting to strongly support the application to keep the land as a community resource. As we hurtle into a climate emergency, green space is more valuable than ever. Chorlton has also recently lost the precinct square as a meeting place for all members of the community, so this green space will continue to fill that void. As many businesses and residents of Chorlton know, parking and traffic are on going issues, having this land turned into housing will only exacerbate these issues.

Ryebank fields has native trees, biodiversity and green space, all of which are part of MCC city plan, losing even a small portion of this goes against that plan. I sincerely hope you strongly consider these points when making a decision on one of the few green spaces that Manchester has left, once it is gone it is gone forever.

Thank you,
