## Comment Details

Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: Dear planning committee members,

Planning Reference: 143413/FO/2025

I wish to support the above referenced planning application for the following reasons:

- it is a natural space home of many wildlife species who thrive there.
- it provides a natural space for calm and connection to nature, supporting local community building and reducing isolation, and providing crucial ecosystem services such as carbon storage, flood management, and improved air quality through its role as an urban rewilded space and wildlife corridor. The site also offers an imaginative play area for children, a valuable dog-walking space, and a place to connect with the natural environment

Please acknowledge receipt of this email/letter.

Yours sincerely
