Comment Reasons:

Comment: Hello,

I'd like to strongly support proposal 143413/FO/2025 to turn Ryebank Fields into a community woodland and meadow.

This is a greenfield site and to allow houses to be built on it would contravene the council's own brownfield-first policy.

It is also a haven for the types of wildlife - such as [REDACTED], hedgehogs and bats - which do not typically inhabit urban parks. Plus there are rare tree formations such as the amazing Aspen Grove.

There is massive local support for this proposal and the council has the opportunity to create a truly special wild urban space that could form a template for other natural sanctuaries around the country.

Please be brave and creative in supporting this proposal.

All the best,

[REDACTED]
