Comment Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: [REDACTED] During this time my family has used the Fields for recreation countless times. It has become a beautiful space full of flora and fauna, quite unlike the adjacent Longford Park Fields. The City plan affirms the Council's support for retaining existing greenspace for the health of the population and I very much hope that the Planning Committee accepts this proposal and cancels any further development plans. Building on these fields would not only deny local people access to this beautiful space, but add to serious levels of pollution and traffic congestion, which are a particular risk for the 5 local primary schools within walking distance. Furthermore it clear that contaminated land should be left to lie dormant.
