MANCHESTER CITY COUNCIL

Appendix E - Waste Management Strategy (v7.00 from September 2023)

Planning Application Number:
Date Submitted: 03/09/2026
Estimated volumes / m2 required by the development: 2,100 litres, based on 1,500 litres per 20 dining spaces.

Will this property be used as a House in Multiple Occupation (HMO)?	No
If this property will be used as an HMO, how many people do you intend to accommodate (5+)?	

Low Rise Domestic

Waste Types	Capacity required (litres)	Number of bins required (per household)	Confirm what is to be provided (and whether the developer or the resident will be responsible for ordering these)
General refuse	140 standard / 240 in certain circumstances	1 x wheeled bin (possibly more for HMO)	
Pulpable Recycling	240	1 x wheeled bin (possibly more for HMO)	
Mixed Recycling	240	1 x wheeled bin (possibly more for HMO)	
Garden Waste	240	1 x wheeled bin (possibly more for HMO)	
Food Waste	23	1 x 23 litre caddy (Possibly more for HMO)	

High Rise Apartment Developments

0.43m2 has been provided per apartment for the containers, with extra space for residents to access each container and space for staff to manoeuvre each container for collection. (different for purpose-built student accommodation – see guidance)	Yes / No (delete as appropriate) How many of each container do you plan to provide? _____ x general refuse x 1100 litre (based on 110 litres per apartment) _____ x pulpable Recycling x 1100 litre (based on 55 litres per apartment) _____ x mixed recycling x 1100 litre (based on 55 litres per apartment) _____ x food waste x 240 litres (based on 10 litres per apartment) _____ x garden waste (if applicable) x 240 litres
Is it as easy, or easier, for residents to recycle, as it is for them to dispose of general waste?	Yes / No (delete as appropriate)

Commercial Developments

Please state number of bins you propose, showing calculations where appropriate.

General Waste - 1 × 1,100 litre general/residual waste bin Dry recycling (include material type details) - 1 × 1,100 litre dry recycling bin Food Waste - 1 × 240 litre dedicated food waste bin Industrial Waste - Other -

Has / will a contract be obtained with a licenced waste carrier?	Yes

Mixed Use Developments

Are the stores for residential and commercial waste completely separate from each other, with residents having no access to the commercial store and the commercial units having no access to the residential store?	N/A

Internal Stores (Residential and Commercial)

Please provide details of internal stores / segregation of waste and recycling.

Waste will be segregated at source into general/residual waste, dry recycling and food waste using clearly labelled containers. Waste will be transferred by staff to the dedicated rear bin storage area.

Storage Areas for Waste Containers (Residential and Commercial)

Please provide details of container stores, attaching plans if appropriate.

A dedicated rear bin storage area will accommodate 1 × 1,100L general/ residual waste bin, 1 × 1,100L dry recycling bin and 1 × 240L food waste bin.

All containers will remain readily accessible for use and collection.

Ensure all bins in the store are accessible	☑
Ensure recycling facilities are as easy to access as general refuse	☑

Please confirm details of waste store ventilation and hygiene / cleaning proposals

Ventilation - Adequate ventilation will be maintained to the bin storage area through the existing building ventilation/openings. Lidded containers will be kept closed when not in use.

Hygiene -The bin storage area will be maintained with an impervious, easily cleanable floor and regularly cleaned. Waste will be contained within lidded bins and any spillages promptly removed.

Please provide details of who will be responsible for placing the bins at the collection point and returning them to the store / property promptly e.g., resident / management company

The premises operator or nominated staff will be responsible for moving the bins from the rear bin store to the designated collection point shortly before the scheduled collection. The bins will be returned to the store promptly following collection and will not be permanently stored on the public highway.

Please ensure that you have attached:

Detailed plans of bin stores	☑
Location plans showing stores	☑
Location plans showing the proposed collection point and the route the collection vehicle will take (please refer to the Road, Vehicle and Waste Operative Access Specification – paying particular attention to turning space and reversing)	☑

Please ensure that you have completed this form in accordance with the latest version of GD04 Waste Storage and Collection Guidance for New Developments – v.7 September 2023, read in conjunction with the Waste and Recycling Service Standard found on the Council website.
