All These drawings are for the purpose of achieving local authority planning and building regulations plans approval only and should not be used as a working drawings for building construction. These design drawings must be read in conjunction with structural engineers design, drawings and calculations.

Existing Site plan

Proposed Site plan

0m 2 4 6 8 10m

permeable hardstanding

The proposed parking area will be surfaced with permeable block paving laid over a permeable bedding layer and open-graded sub-base, installed in accordance with the manufacturer's recommendations.

Surface water will be managed within the site, allowing infiltration into the ground where ground conditions permit.

No surface water runoff shall discharge onto the public highway or neighbouring land.

The paving will be maintained to preserve its permeability.
