Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use

This proposal is to place a storage unit on the car park site of St Nicholas Church, Kingsway. Burnage Foodbank currently operates out of this site on Tuesdays to serve the local community of Burnage who are facing hardship and food poverty. The Foodbank has a second site at St Bernard's Church, Burnage Lane. The reason for the two locations is to increase accessibility and our reach to the local community. The Foodbank is staffed predominantly by volunteers who dedicate their time to the collection, organisation and distribution of emergency food parcels. We previously rented a storage facility off-site, which was extremely costly, difficult to manage and restricted accessibility - particularly for the volunteers. This cost was increasing year on year, and as funds to maintain the Foodbank continue to reduce, as an organisation we needed to prioritise our stock, and our staffing to ensure that the operation continues to run so that we can support local people facing financial hardship and food insecurity. The proposal would increase accessibility as all volunteers are on-site on a Tuesday and stock can be transferred more easily and in a more safe manner between the store and the Foodbank distribution in the church hall. The shipping container would be the central storage for stock to be distributed across both of the sites used by Burnage Foodbank.

We are proposing to install this container for a 5-year period. Before the end of this 5-year period, we will review the need for this storage unit for Burnage Foodbank. If it is no longer needed, the container will be removed and the land shall be reinstated as a car parking space. If there is still a need for the container, we will seek advice from the Planning Department and submit a renewal or new application. If operation of the food bank ceases within five years, the container will be removed and the land reinstated to facilitate its use for vehicle parking.

The container unit shall only be used for the storage of food and domestic goods and in conjunction with the work and activity undertaken by the Burnage Foodbank and for no other purposes. The container will be a standard 20ft shipping container and will be positioned in the top right-hand corner of the car park. It will remove one car parking space. The container will be dark green and maintained with a dark green (RAL 6007) colour treatment, with no markings. We will implement a landscaped screening across the full southern elevation in order to soften the appearance of the container.

Use of the container will only take place Mon - Fri, 9am-6pm, and will not operate at weekends or on Bank Holidays. All waste and recyclable material relating to the development shall be stored within the authorised storage container whilst awaiting collection.

Has the work or change of use already started?

Existing Use

Please describe the current use of the site

The site is a car park for St Nicholas Church, Kingsway. It has parking spaces for 24 vehicles, including disabled parking. The car park ensures access to the building of St Nicholas Church via steps/ramp, into both the church and the church hall. The car park is used daily (as appropriate) for the Church, and for use of the hall by organisations and private hire. This proposal will use one of the existing car parking spaces. Leaving sufficient car parking spaces for ongoing use.

Is the site currently vacant?

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

b) Designated sites, important habitats or other biodiversity features

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

c) Features of geological conservation importance

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

Do you confirm that the development falls below the impact threshold and that no onsite priority habitats are impacted?:
Yes

Please justify the reason why biodiversity net gain does not apply:
This proposal does not impact on the surrounding landscape and therefore will not have a negative on the biodiversity.

Please read the help text for further information why developments may be exempt or not in scope.

Evidence for 'de minimis' exemption claim

Government guidance strongly encourages the provision of evidence (e.g. plans and metric calculations) to allow the local authority to validate your exemption claim, even where the site is zero rated. Failure to submit sufficient information may result in your application being deemed invalid, delaying progress until it is provided.

Please provide the pre-development biodiversity value of onsite habitats on the date of calculation

Please provide the date the onsite pre-development biodiversity value was calculated

dd/mm/yyyy

This should be either the date of the application, or an earlier proposed date

Please provide the projected post-development biodiversity value

Please provide the reference for any document or supporting file (for example, the completed biodiversity metric calculation) that supports the values and justification above and will allow the local planning authority to confirm that the impact on on-site habitats falls below the de minimis threshold, taking into account any on-site priority habitats.

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

- ○ Yes
- ⊘ No

Have arrangements been made for the separate storage and collection of recyclable waste?

- ⊘ Yes
- ○ No

If Yes, please provide details:

Yes, we are very mindful of any waste incurred from Burnage Foodbank's activities to be disposed of and/or recycled in line with Manchester City Council's guidelines. The waste will be minimum, mainly cardboard from food packaging. We have a good stock rotation system to avoid food waste.

Trade Effluent

⊘ No

Community Infrastructure Levy

Your development may be liable for a charge under the Community Infrastructure Levy if it involves new or additional gross internal area for residential and non-residential buildings, including extensions or a new dwelling. If your scheme is liable, this charge is payable after development begins.

Information on the CIL charges can be found on the local authority website. In London both Mayoral and local borough CIL charges may be applicable.

Your answers below, and in the application, will enable the local authority to establish if your development is liable for a charge and to calculate it accurately.

Further information on CIL, and what to do if you are liable can be found on the Planning Portal.

It is an offence for a person to knowingly or recklessly supply information which is false or misleading in a material respect to a collecting or charging authority in response to a requirement under the Community Infrastructure Levy Regulations (2010) as amended (regulation 110, SI 2010/948). A person guilty of an offence under this regulation may face unlimited fines, two years imprisonment, or both.

Liability for CIL

Does the application include new build development (including extensions and replacement) of 100 square metres gross internal area or above?

◯ Yes
⊘ No

Note: Answer No if either:

- the new or additional internal area only relates to a building into which people do not normally go or only go into intermittently for the purposes of inspecting or maintaining fixed plant or machinery; or
- the new or additional internal area solely relates to an internal/mezzanine floor and no other works or change of use are proposed.

Does the application include creation of one or more new dwellings (including residential annexes) either through new build or conversion (except the conversion of a single dwelling house into two or more separate dwellings with no additional gross internal area created)?

◯ Yes

Details of the pre-application advice received

We have had a number of phone calls and emails with Mr Glennon since March, regarding our previous planning application (145426/FO/2026). This included information on the implementation process, discharge conditions, non-material amendments and S73 applications. On 2/10/2026 he advised that a new full planning application was required to alter the size and respond to the discharge conditions.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
