Informatives

Building Regulations 2010

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

You can apply online at the following address: www.manchester.gov.uk/roads-and-transport/street-naming-and-numbering

Bats

The applicant/developer is reminded that all species of bats and their roosts are protected under the relevant wildlife legislation. In the event that bats, or evidence of bats, are discovered during the course of demolition, site clearance, conversion or construction works, all works in the affected area shall cease immediately and a suitably qualified ecologist shall be contacted for advice. Where necessary, the applicant must obtain the appropriate licence from the relevant nature conservation body before works recommence.

Failure to comply with wildlife legislation may constitute a criminal offence. The applicant is therefore advised to ensure that all contractors working on the site are made aware of this requirement and that appropriate precautions are taken throughout the construction period.

Drainage

MCC records highlight that the underground Mill Brook is located beneath the access road at Floats Road in the immediate vicinity of the south-westem boundary of the site. While our records are frequently updated to ensure the highest level of accuracy, the records cannot guarantee 100%accuracy for all culverted assets. Therefore, we would request that the applicant informs the onsite contractor to remain observant and to take the appropriate safety precautions during excavatbnworks. If any major unknown drainage assets are found beneath the site, then further investigation works should take place to identify the asset and MCC Lead Local Flood Authority (LLFA) should be contacted immediately. Any alterations to an ordinary watercourse will require consent from MCC LLFA under Land Drainage Act 1991. The developer can apply for land drainage consent (if required) the following link:
