Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

- [x] Yes
- [ ] No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

The proposed building operations include the removal of existing ACM panels from the outside face of the existing façade of Windsor House, to be replaced with Luxe Clad A1 and the installation of Tenmat fire barriers. To maintain the buildings existing character, the ACM panels will be removed carefully to allow for the installation of the Tenmat fire protection and metallic cladding, that has been selected to match the previous cladding like-for-like in design, colour and profile. The works are to be carried out following a fire risk appraisal in which the ACM cladding was deemed high risk, therefore requiring the removal and replacement of the cladding in order to safeguard the buildings occupants and meet mandatory fire safety requirements. The proposal does not involve the alteration or creation of any new access, its internal layout, construction of hard standings, or any changes to the existing means of enclosure or drainage systems.

Does the proposal consist of, or include, a change of use of the land or building(s)?

- [ ] Yes
- [x] No

Has the proposal been started?

- [ ] Yes
- [x] No

Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The residential uses of the building are lawful. Having been established between 2003 and 2006, the buildings have been in residential use for over 20 years, (making them lawful and immune from planning enforcement action). We consider the cladding remediation works to be done on the residential building to be lawful because the integrity of the buildings, its use and core spatial organisation, will not be compromised or alter from the original architecture, design and finish.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

23594-Materials Schedule

Select the use class that relates to the existing or last use.

C3 - Dwellinghouses

Information about the proposed use(s)

Select the use class that relates to the proposed use.

C3 - Dwellinghouses

Is the proposed operation or use

- [x] Permanent
- [ ] Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

We believe the project should be granted a LDC for the following reasons:

1. The proposed new cladding material matches like-to-like, meaning the external appearance does not materially change under Section 55 of the Town and Country Planning Act 1990.
2. Use Remains Unchanged. The buildings primary use remains exactly as existing.
3. The replacement of the external cladding and introduction of fire barriers is a mandatory safety upgrade under Approved Document B for a building over 11 meters tall. This replacement does not alter the overall character or external appearance of the building.

As the works do not constitute development requiring full planning permission, a Lawful Development Certificate should be issued to formally confirm the compliance of these essential safety works.

Community Infrastructure Levy

Your development may be liable for a charge under the Community Infrastructure Levy if it involves new or additional gross internal area for residential and non-residential buildings, including extensions or a new dwelling. If your scheme is liable, this charge is payable after development begins.

Information on the CIL charges can be found on the local authority website. In London both Mayoral and local borough CIL charges may be applicable.

Your answers below, and in the application, will enable the local authority to establish if your development is liable for a charge and to calculate it accurately.

Further information on CIL, and what to do if you are liable can be found on the Planning Portal.

It is an offence for a person to knowingly or recklessly supply information which is false or misleading in a material respect to a collecting or charging authority in response to a requirement under the Community Infrastructure Levy Regulations (2010) as amended (regulation 110, SI 2010/948). A person guilty of an offence under this regulation may face unlimited fines, two years imprisonment, or both.

Liability for CIL

Does the application include new build development (including extensions and replacement) of 100 square metres gross internal area or above?

- [ ] Yes
- [x] No

Note: Answer No if either:

- the new or additional internal area only relates to a building into which people do not normally go or only go into intermittently for the purposes of inspecting or maintaining fixed plant or machinery; or
- the new or additional internal area solely relates to an internal/mezzanine floor and no other works or change of use are proposed.

Does the application include creation of one or more new dwellings (including residential annexes) either through new build or conversion (except the conversion of a single dwelling house into two or more separate dwellings with no additional gross internal area created)?

Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

◯ Yes
⊘ No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

◯ Yes
⊘ No

Interest in the Land

Please state the applicant's interest in the land
