Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Temporary development (no more than 5 years)

Do you agree to your entire proposal being subject to a condition under Section 72 of the Town and Country Planning Act 1990 which limits the permission to a period of 5 years or less?:
Yes

If this application is approved, when taken together with any earlier grant(s) of planning permission for the same temporary development, would the total of the specified temporary period(s) exceed five years?:
No / Not Applicable

Are there any priority habitats on or within 500m of your site?:
No

Can you evidence that you carried out a site assessment if the local authority disputes the presence of priority habitats?:
No

Please justify the reason why biodiversity net gain does not apply:
To be used as a temporary site compound to carry out internal works to surrounding properties. The works will last for about 40 weeks. The site will be surrounded by Heras Fencing supported brace with pegs 1.8m high.

Please read the help text for further information why developments may be exempt or not in scope.
